Presented at 2012 3rd IEEE PES ISGT Europe, Berlin, Germany, October 14 -17, 2012

Panel Session on

Hydroelectric power generation from Scandinavia in the Future European Smart Grid

Chair Lina Bertling Tjernberg, Chalmers

Key Note Speakers:

IEEE PES ISGT Europe, Berlin, Oct. 2012

IEEE

IEEE PES Power & Energy Society

Key Note Speaker
Sture Larsson

Mr Sture Larsson retired at the end of 2011 from positions as Technical Director and deputy CEO at Svenska Kraftnät the Swedish Transmission system operator. Mr Larsson is an honorary member of Cigré and served as Chairman of study committee C2, power system operation and control.

Key Note Speaker
Professor Gerard Doorman

Gerard L. Doorman is a professor in electric power systems the Norwegian University of Science and Technology (NTNU). He has been with SINTEF Energy Research working with hydropower optimization, energy systems analysis and market design. His current interests are the use of operations research in power systems and power markets, modeling and implementation of demand response and internationalization of balancing markets.

IEEE PES ISGT Europe, Berlin, Oct. 2012

Key Note Speaker

Professor Xiao-Ping Zhang

Prof. Xiao-Ping Zhang is a Professor of Electrical Power Systems at the University of Birmingham and Director of the University Institute for Energy Research and Policy. Prof. Zhang previously had a position of Alexander von Humboldt Research Fellow with the Institute of Power Systems and Power Economics at Dortmund University, Germany. His publications includes books on FACTS, HVDC and electricity market modelling.

Key Note Speaker

Professor Thomas Tangerås

Thomas Tangerås is associate professor of economics and a research fellow at the Research Institute of Industrial Economics in Stockholm. Thomas specializes in electricity and telecommunications markets and is director of the research programme "The economics of electricity markets". He takes particular interest in the analysis of market performance and of network regulation.
